

MAKE YOUR OWN PAPER SQUISHY

Strawberry Soda · step-by-step instructions · tillyfern.com

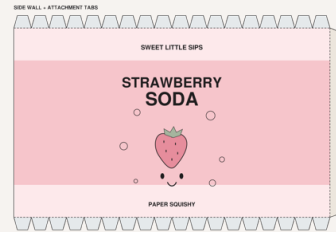

You will need: printer paper (80–100 gsm) · clear packing tape · scissors · cotton wool or polyester stuffing · a needle (adult)

01 Print and color

Print the color net OR the black-and-white one on regular paper (80–100 gsm) at 100% / Actual size, Letter or A4. Turn off "Fit to page" and check the 2 cm guide. Color the black-and-white net before taping.

02 Tape and cut

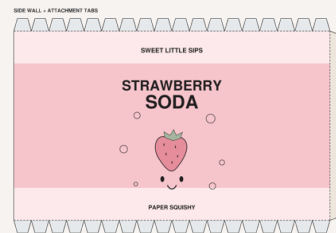

Cover the printed side with clear tape. Cut out the wall with all its tabs and both circles along the solid lines. Do not cut across the dashed fold lines.

03 Roll the side wall

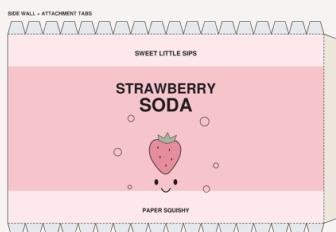

Fold the side seam inward and roll the wall into a tube. Line up the opposite edge with the dashed seam line and tape the 8 mm flap inside.

04 Attach the bottom

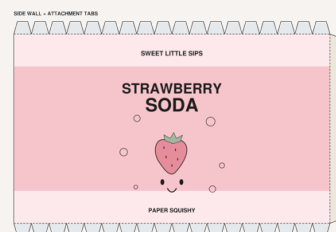

Fold the lower tabs inward at the dashed line. Put the BOTTOM circle over the tabs with its picture facing out, tape it to every tab, then tape around the rim.

05 Fill and add the top

Add a little cotton wool or stuffing through the open top — do not pack it tight. Fold the upper tabs inward and place the TOP circle over them, picture facing out.

06 Seal and squeeze

Tape the top circle to every tab and seal both rims with short strips of tape. Squeeze gently. If it stays flat, ask an adult to make one tiny air hole in the back.
